

TULIP QAMIC

Modern and energy-saving projectors TULIP that have a very high luminous efficiency and are based on the highest quality components.

Parameters:

| Name            | Luminaire luminous flux [lm] | Power of luminaire [W] | Color [K] | Dimensions A x B x H [mm] |
|-----------------|------------------------------|------------------------|-----------|---------------------------|
| TULIP QAMIC 21W | 2695 / 2285                  | 21                     | 4000      |                           |

Lighting and electrical parameters:

|                                  |                     |
|----------------------------------|---------------------|
| Light source                     | LED                 |
| Voltage                          | 220-240 V, 50-60 Hz |
| Lifetime of LED sources [h]      | 78000               |
| Lx/By                            |                     |
| CRI                              | >80/>90             |
| SDCM                             | 3                   |
| Photobiological risk class       | RG0                 |
| Operating temperature range [°C] |                     |
| Driver                           | LED Driver          |

Mechanical data:

|          |                          |
|----------|--------------------------|
| Material | aluminium                |
| Color    | black<br>gray<br>white * |
| Diffuser |                          |

Technical data may be changed. Photos of the luminaires may differ from reality.
